

Corporate VPN Setup & Troubleshooting Guide

Error ERR_VPN_AUTH_401: TLS Handshake / Gateway Auth Timeout

1. Disconnect GlobalProtect client completely.
2. Flush DNS: `ipconfig /flushdns` OR `sudo dscacheutil -flushcache`
3. Verify Okta credentials are not expired.
4. Reinstall ACME-Root-CA-2026.crt certificate.
5. Reconnect and select nearest gateway.
6. Collect debug logs if issue persists.
